Re: Plan to displace United States' workers with foreign workers.

Attention (name of supervisor),

We are aware of your intent to replace some of the United States' and permanent resident workers with foreign workers. We do not agree with this decision. We will not sign a severance agreement unless it is reviewed by counsel and we will not be quiet. We will notify the world that you chose deeper pockets over protecting our jobs.

I am writing this letter on behalf of myself and my co-workers. If any adverse employment action is taken against me for sending this letter then I will file a claim with the National Labor Relations Board based on my "concerted activity."

Thank you for reconsidering your decision and doing what is right for this country and for our American families.

Sincerely,

Signature
